

MCSE on Windows Server 2003

Microsoft Certified Systems Engineer (MCSE)

The enduring strength of Windows Server 2003 in the market suggests that demand for related IT expertise will continue for many years. The MCSE on Windows Server 2003 certification enables you to demonstrate your expertise with Windows Server 2003 and inspire confidence in clients and employers. Prove your ability to analyze business requirements for information systems solutions and validate your expertise in designing and implementing infrastructures based on Windows Server 2003.

To earn the MCSE on Windows Server 2003 certification, you must pass seven exams (in any order):

- Four exams on networking systems
- One exam on client operating systems
- One exam on design
- One elective exam

Note Many of the exams in this certification track are retired. If a required exam is retired and you have not yet passed that exam, you cannot complete the certification track. You must fulfill all listed requirements to earn the certification. If you passed a required exam before it retired, it can be applied toward certification. The credential will not expire.

Exams on networking systems: All required

Exam Number	Exam Name
070-290	Managing and Maintaining a Windows Server 2003 Environment
070-291	Implementing, Managing, and Maintaining a Windows Server 2003 Network Infrastructure
070-293	Planning and Maintaining a Windows Server 2003 Network Infrastructure
070-294	Planning, Implementing, and Maintaining a Windows Server 2003 Active Directory Infrastructure

Exams on client operating systems: Choose one

	Exam number
070-620	TS: Configuring Microsoft Windows Vista Client Note You may apply this exam toward either the elective requirement or the client operating systems requirement—not both.
070-270	Installing, Configuring, and Administering Windows XP Professional

Exams on design: Choose one

	Exam number
070-297	Designing a Windows Server 2003 Active Directory and Network Infrastructure Note You may apply this exam toward either the elective requirement or the design requirement—not both.
070-298	Designing Security for a Windows Server 2003 Network Note You may apply this exam toward either the elective requirement or the design requirement—not both.
